Rooms

We have 83 rooms in the hotel, including 2 suites, 3 junior suites and 8 family rooms.

All rooms have shower, WC, cable television and telephone.

Restaurants and Bars The hotel offers a wide variety of food and beverages, whether your preference is a cold beer from our own brewery or a vintage wine from our wine cellar. We have both a buffet restaurant and an à la carte restaurant. More intimate meetings and meals can be arranged in secluded areas connected to both restaurants.

Skogstad Restaurant The restaurant offers daily first class food using quality ingredients. There is a choice of cold and hot dishes – fish, meat, vegetables, desserts and coffee as well as an excellent wine list.

Skogstad Bistro is our exclusive à la carte restaurant which accommodates just 50 guests. With an open kitchen solution and a panoramic view of Hemsedal's nightlife, the atmosphere is unique. From the menu one can choose between exclusive dishes from seafood to game, based on local, quality produce.

Elgen Micro Brewery Elgen (the Moose Bar) is a good old-fashioned hit. The atmosphere is intimate and rustic and we recommend everything from the house brew to a snack from our excellent bar menu. A popular bar for late after-ski with live music or a DJ. The mix of regular guests and a variety of visitors makes Elgen a natural meeting point in the valley.

Fjellbekk Nightclub Hemsedal's newest nightclub can offer good drinks, a spectacular dance floor and a house DJ who creates just the right atmosphere with his music. Here the environment and the people are in focus and the scene is set for a successful evening. In Fjellbekk you will also find Norway's only Club Famous, a private whisky room which can be hired for special gatherings.

**“In Elgen Micro Brewery,
you can order a “GOFA”
–the hotel’s own brew”**

Hospitality since 1905 The history of Skogstad Hotel began in 1905 as a combination of small farm, general store, posting station and guest house. At that time Hemsedal was a natural stopping place between east and west and the guesthouse was only open during the summer and for Easter week.

In 1961 the first alpine slope in Hemsedal was built by the local inhabitants. It was then that the flow of tourists to the area started in earnest. The guesthouse began to receive winter guests, was extended and achieved hotel status in 1964. The hotel has adjusted to the tourist flow and has facilities to satisfy the majority.

Here at Skogstad we have preserved the homely and informal atmosphere of the posting station. Welcome!
